WHAT WERE THE FUND COSTS FOR THE PAST YEAR? (based on a hypothetical \$10,000 investment)

Fund Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
TrueShares Structured Outcome November ETF	\$87	0.79%

HOW DID THE FUND PERFORM LAST YEAR AND WHAT AFFECTED ITS PERFORMANCE?

TrueShares Structured Outcome November ETF delivered a positive return of 19.19%, underperforming compared to its benchmark, S&P 500, which returned 23.31%.

The fund's underperformance was expected, as the portfolio utilizes a "buffer protect" options strategy, that seeks to provide investors with returns (before fees and expenses) correlated to those of the S&P 500 Price Index.

The strategy is implemented through the purchase and sale of options on the S&P 500 Price Index or an ETF that tracks the S&P 500 Price Index. The TrueShares "uncapped" design seeks more participation in "right-tail" events (critical to generating strong, long-term performance) when compared to other defined outcome ETFs.

HOW DID THE FUND PERFORM SINCE INCEPTION?*

The \$10,000 chart reflects a hypothetical \$10,000 investment in the class of shares noted and assumes the maximum sales charge. The chart uses total return NAV performance and assumes reinvestment of dividends and capital gains. Fund expenses, including 12b-1 fees, management fees and other expenses were deducted.
